

Mast Installation & Mounting Accessories

A wide range of installation and mounting accessories are available for Racal Antennas series of masts. Ground mounting kits are available containing all the hardware necessary to field deploy the mast. The user-friendly design of the guy rope reels makes tensioning of the guys and aligning the mast simple. Hardened and tempered guy stakes are suitable for all kinds of soils including permafrost. Individual components are also available such as guys, ground stakes, ground spikes, toolkits and base plates to replace lost or damaged parts.

Racal Antennas also has a wide range of vehicle and shelter mounting brackets for the storage and deployment of masts. If a standard design does not meet the exact requirement they can easily be adapted to suit the customers specific requirement. Racal Antennas would be pleased to discuss your specific mounting requirement.

Hand portable storage drums are available for storage and deployment of coaxial and electrical cable assemblies. They are available in various sizes to accommodate all the standard coaxial and electrical cable diameters/lengths.

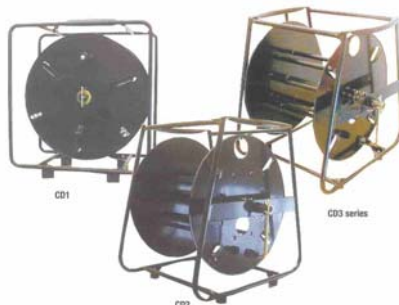

Ground Stake and Guys

Vehicle and Shelter Brackets

Manual Winch

Hand Portable Storage Drums

Baseplate, Ground Spikes & Eye Bar
